## EXPR

### Sr Front-end Developer

ALLIANCE INNOVATIONS, BUENOS AIRES

2023-10 - PRESENT

- Developed custom Drupal themes using HTML, CSS, and JavaScript, ensuring full alignment with visual and functional requirements.
- Implemented responsive design strategies to deliver seamless user experiences across a wide range of devices and screen sizes.
- Performed cross-browser and cross-device testing, ensuring consistent appearance, accessibility (WCAG), performance, and SEO compliance.
- Diagnosed and resolved frontend issues, including layout inconsistencies, browser compatibility problems, and JavaScript errors.
- Collaborated with design and backend teams to integrate APIs and bring UI mockups to life with precision.
- Built reusable components with Next.js, React.js, and TypeScript, leveraging React Hooks and managing state with Redux, Zustand, or Context API.
- Created unit tests for critical components, contributing to code reliability and smoother development workflows.

### Sr. Front-end Developer

JACSSOFT, BUENOS AIRES

2021-07 - 2023-10

- Designed and implemented custom web solutions using modern frameworks such as Drupal, WordPress, Next.js, Nuxt.js, React.js, and Vue.js.
- Refactored legacy codebases and developed new features, improving performance, maintainability, and scalability.
- Built responsive, accessible, and SEO-optimized websites, ensuring a consistent experience across devices and user needs.
- Applied modern frontend technologies and best practices, delivering clean, efficient, and modular code.
- Managed application state effectively using React Hooks, Redux, and Zustand to enable dynamic and interactive user interfaces.
- Created unit and functional tests with modern testing libraries to ensure code reliability and facilitate continuous integration.

### Front-end Developer

FRONT10, LA HABANA

2019-11 - 2021-06

- Developed and customized React components based on design specifications and user interface guidelines.
- Ensured pixel-perfect implementation of layouts, maintaining consistency with Figma/Abstract/Invision mockups and design systems.
- Collaborated closely with design and backend teams to integrate UI components with APIs and maintain alignment with user flows.
- Conducted functional and visual testing of reusable components across multiple screen sizes and browsers.
- Maintained clean, modular, and reusable code, adhering to component-based architecture and frontend best practices.
- Implemented responsive layouts and accessibility standards (WCAG) to ensure usability across devices and user needs.
- Used version control systems (Git) for code collaboration and task management in agile environments.

### Project Leader / Software Developer

SITRANS, LA HABANA

2018-12 - 2021-04

- Led the development of websites using Drupal, ensuring code quality, performance, and alignment with project goals.
- Oversaw the full software development lifecycle, from requirements gathering and planning to deployment and maintenance.
- Participated in client meetings to present progress, gather feedback, and refine requirements based on stakeholder needs.
- Delivered technical presentations and product demos at events and conferences to represent the company and showcase solutions.
- Mentored junior developers and promoted best practices in coding, version control, and agile methodologies.
- Collaborated with cross-functional teams including design, QA, and product to ensure timely and successful project delivery.
- Contributed to architectural decisions and helped define development standards and processes.
- Performed code reviews and optimizations, identifying issues and ensuring scalability and maintainability.

## Drupal Developer

2016-12 – 2018-04

UCI, LA HABANA

- Setup and customization of contributed and custom Drupal modules.
- Assisting in theme creation and customization using Twig, CSS and Javascript.
- Configuring content types, views, and taxonomies.
- Supporting the identification and resolution of issues on existing sites.
- Working with designers and developers in agile environments.
- Applying WCAG guidelines and basic SEO best practices.
- Ensuring proper display across various devices and screen sizes.
